Office Action Summary

Art Unit: 2124

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-19 and 32-36 are, drawn to apparatus/method for performing coordinate conversion, classified in class 708, subclass 442.
 - II. Claims 20-31 are, drawn to synchronizer, classified in class 375 , subclass 354.
2. The inventions are distinct, each from the other because of the following reasons:

Each group of claims is directed to a separate invention. It is noted that the groups maybe belong to a system. However, this is not sufficient to prevent a restriction requirement.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
